

**The George Adamski and Howard  
Menger Series: The Truth About the  
Galaxy: A Brief Summary Also The  
Kors of the Alliance Are Our Friends  
(The Alliance Is A Different Group  
From The Confederation) And How  
Anyone Can Contact the Real  
Galactic Confederation**

**by Lucas Louize**

ISBN 978-1-948759-26-7 (2019)

I dedicate this book to all the wonderful friends of the Confederation and the Alliance. This brief book could not be written without them. I also wish to thank brother Bob for his excellent TerraKor Files website and the articles by brother ArKay therein which has personally given me much hope in addition to my friendship with the Confederation friends. It is because of brother Bob, brother ArKay, and Alliance master KALEN-LI RETAN that the information presented in this book is accurate as presented on Bob's TerraKor website. My humble gratitude to them. It is my wish that this brief book gives people hope about the future of Earth and to know we are not alone and to have the truth about the galaxy without all the piffle and nonsense that pervades so much of the UFO movement.

# Table of Contents:

Introduction and How Anyone Can Contact the Confederation.....	5
Chapter 1: A Brief Summary of The Truth About The Galaxy and Brother Bob Renaud.....	14
Chapter 2: An Overview of the Omegan Situation More Detail.....	17
Chapter 3: Kalran Empire Information.....	22
Chapter 4: Spurious Contacts Files.....	24
Chapter 5: A Brief Summary of ArKay Questions And Answers.....	26
Chapter 6: How To Tell A Real UFO Contactee by Master KALEN-LI RETAN.....	33
Chapter 7: Billions of Earths Not True.....	36
Chapter 8: How Confederation and Omegan Operatives Are Born Here On Earth (My View) .....	38
Chapter 9: I Support the Galactic Tribunal Ruling and My Theory.....	40
Chapter 10: The Non-Interference Directive, Religion, End of Times, 1989 Tiananmen Square Protests, and Arcturus.....	44

Chapter 11: The Alliance-Confederation Brotherhood Club Future Hope.....	48
Chapter 12: Brief List of Some of the Brightest Stars With Colonized Planets.....	51
Bibliography:.....	54
Snap shot of TK Guestbook discussion of brother Bob and myself.....	55

# **Introduction and How Anyone Can Contact the Confederation**

The truth about the galaxy is not all sweetness and light. It is not light-beings, interdimensional Pleiadean golden haired God's and other piffle. The reality is much darker and much more disturbing. Within our quadrant of the galaxy there is literally an interstellar war being waged at the time this is being written (2019). There are 23 planets involved in the conflict. One of them is Earth.

Our little planet is within Confederation territory. The Confederation are the galactic friends of Earth who contacted George Adamski, Howard Menger, Daniel Fry, Buck Neslon, this author, and were the Italian W56 however the Confederation contactees Adamski, Menger, Fry, Nelson, and others, had their memories manipulated by an evil group known as the Omegans. to make them think the Confederation comes from Venus or other local planets in order to discredit the Confederation contactees message. 2.

The Omegans were originally ambitious disaffected Confederation activists who disagreed with Confederation policy including the Non-Interference Directive. Overtime the Omegans became rebels and organized into a sort of galactic covert imperialist group taking over planets that contained a certain level of technological development coupled with generally immoral culture through infiltration. The Omegans then develop and use the technology and immorality of the planet's populace to their own ends with the ultimate goal of using the planet's people to attack confederation worlds through way of the Omegan's guiding the world's technological developments to attack the Confederation. 3.

The Non-Interference Directive prevents the Confederation from getting more involved to deal more directly with this threat since Earth is not a member of the Confederation. The Omegans have

taken advantage of this rule and have used it greatly to their advantage. The Omegans are also backed by a criminal group known as the Syndicate who does not offer military support but does offer support in other ways. The Syndicate had enlisted the Omegans as an arm to attack and gain footholds in Confederation territory. 4.

In the 1980's the Omegans formed a pact with another ruthless group with a large military force known as the Kalrans. 5.

Who are the good guys in this war?

There is hope. The Confederation as mentioned before are one of the good guys in this struggle. They have heroically combatted the Omegans and other evil groups (50 Years of Amizicia and Mass Contacts) 6. And I have seen them heroically intervene against undercover Omegans in my own life.

There is another good guy group who are also heroes of Earth people known as the Alliance. They have all but abandoned the Non-Interference Directive to combat directly this Omegan/Syndicate threat. 7.

Unlike the Confederation the Alliance has a large advanced military force and they are using it to deal with both the Omegans and the Kalrans. In fact since 2013, the heroic Alliance stopped the main Omegan program here on Earth so their main program is no longer a serious threat 8. however the Omegan presence is still deeply entrenched in Earth.

The Alliance has made it clear that under no terms are any Earth people to take up arms and violently resist Omegan control here on Earth because anyone who does so will die. We must leave the physical fighting of the Omegans to the Alliance and the Confederation. The Alliance estimates that within 40-50 years we may see some of the positive changes due to the Alliance presence here. 9. The Alliance is more advanced then the Omegans.

So what can we do?

The Alliance recommends living by and encouraging morals. The Omegans want us fighting each other and creating overall immorality which can be used to their advantage. The more people practice morals, and follow the teachings of Jesus as recommended by the Alliance the more it will support their program. 10. This is the way to support the Alliance.

What can we do in supporting the Confederation? Here is an article I wrote on the subject in previous books but I feel it is valuable enough to reprint here ( I also added updated info. to it):

**Galactic Federation: Overcoming Gang stalking Electronic Harassment/Evil Omegan and Other Groups (2019) (More Detail) And How Anyone Sincere Can Contact the Confederation**

The people behind the gang stalking and electronic harassment are called the Omegans. They originally began as disaffected activists from the Confederation and evolved into a large criminal organization as stated on brother Bob Renaud's Alliance-Terran Communication Center Terrakor website. They are physical evil extra-terrestrials that live undercover in society.

Earth is in Confederation territory. The Confederation are the 'Angels' in the bible and are physical positive extra-terrestrials that live under cover in society. Their undercover agents are here on Earth to be good examples for Earth people to follow and they also protect people from the Omegans. The undercover Confederation agents are open to contacting anyone who is sincere in support to them. The claims of Adamski, Menger, and Nelson that the Confederation agents live on Venus was memory manipulation from the Omegans in order to discredit their message. This is stated on the Alliance-Terran Communication Center website under the section the 'Spurious Contacts Files'. The Confederation really come from other parts of the galaxy or universe.

The Alliance are another friendly group on Earth that also live undercover in Earth society however they do not contact anyone except brother Bob.

The Omegans lack a military force to attack the Confederation. The goal of the Omegans was to gradually shape Earth people into becoming a global culture of uncaring immoral people focused on constant warfare and to eventually direct the warfare against the Confederation by staging an attack against the Earth that would cause a significant loss of life then blame the Confederation as the attackers while presenting themselves as the 'heroes'. As stated on the Alliance-Terran website the evil goal of the Omegans has largely been stopped by the Alliance.

However the Omegan presence continues on Earth and they and carry out psychological warfare against Earth people in general by indirectly controlling the media or by subtly manipulating politicians and other important people as stated on the Alliance website. I know personally they also carrying out gang stalking and electronic harassment against targeted individuals for various reasons. As the scope of gang stalking is world wide and the sheer numbers it takes to harass each individual it is my belief that there are millions of Omegan agents on Earth. In Mass Contacts Breccia states the CTR's (the Omegans who are not robots that false belief was from memory manipulation they are actual people just like the Confederation though both groups do have autanoman which are biological robots) the Omegans carried psychological warfare and electronic harassment such as:

“...altering documents, changing memories, even wiping out somebody's memories, injecting wrong feelings, as easily as if they were showing a movie. Our friends (the Confederation- ed) had often stressed that against all that the only possible defense should consist in a firm will...” as stated in Mass Contacts by Breccia through Bruno Sammaciccia's account. Also follow the Sermon on the Mount as we will soon see.

The Omegans are limited on how they can treat Earth people because of the presence of the Alliance and Confederation on

Earth and because another criminal group called the Syndicate has limited what actions the Omegans can take.

Any Earth people that physically challenge the Omegans will die. They are far more advanced than any Earth society and Earth people are nothing but bugs to them.

So what can Earth people do?

The Omegans are losing to the Alliance and they are intimidated by the Confederation. (I have seen undercover Omegans gang stalking me become intimidated by a single undercover Confederation heroic agent) The optimal situation would be for the Omegans to have to deal with losing to the Alliance, have to deal with being intimidated by the Confederation, and be rendered powerless against psychologically influencing Earth people with their psyops tactics.

How can this be done?

The Omegans have been called the Anti-Christ by the Confederation. Logically therefore people only need to practice the teachings of Christ. Read and follow the Sermon on the Mount the best you can. If the undercover Omegans carry out psychological warfare or electronic harassment against you simply forgive them. When you forgive them you automatically earn the right into heaven (ie. Incarnation into higher planets) and your sins are forgiven as stated in the Sermon on the Mount. Also after you forgive them pray to God that the Confederation and the Alliance continue to win the planet because Jesus said when you pray first forgive others than your sins are forgiven by God then pray for what you want. In this way the Omegan psyops against you becomes perpetually self defeating for them (the military will also witness their evil as it makes the Omegans look bad if you follow the sermon on the mount teachings and they continue to harass you) however you will have perpetual self gain for yourself because the more you forgive the more you prove your worth to God and the Confederation and you can pray for whatever you want and also you can incarnate into higher Confederation worlds

while the Omegan pysops have little effect as long as you keep your willpower. The W56 said willpower is the only defense against evil psyops by the CTRs (Omegans) as stated in Breccia's book Mass Contacts.

#### How Anyone Can Contact the Confederation:

When you pray ask God for assistance from the Confederation and the Confederation registering discs will pick up your thoughts and they will either influence your subconscious from a distance in moral ways with their technology or they may send an undercover agent to be good examples to you or to protect you from Omegans or other evil. (The Omegans also have technology to read thoughts. The military also has technology to read thoughts in a cruder fashion.) The real undercover Confederation agents never channel or give high level intel to any Earth person because they are undercover and we are not members of their group yet. The real undercover agents radiate powerful joy and friendship energy. We can feel energy from books, pictures, ect. ect. So feel the real Confederation energy from real undercover Confederation agents here (I believe people feel the energy through natural ability alone or with a combination of natural ability and imprinting by the Confederation as well):

The Omegans radiate no energy or hate or other negative energy even parasite type energy like the undercover Omegan agent in the picture below. It is the man in the suit that is kneeling:

This video is dedicated to the Earth people, to the heroic Alliance especially my heroes brother Bob and brother Arkay and their good teachings on their Alliance site, and most important to me the heroic W56, the heroic Buck Nelson's group, and the heroic Confederation as a whole because I have witnessed them stopping undercover Omegan gang stalking and harassment and more and without them I would likely be dead. It is my hope that by encouraging people to come into contact with the Confederation undercover friends we Earth people can evolve through service and friendship and by following the Sermon on the Mount perhaps the evil forces on Earth will be hard pressed to deal with the Alliance, the Confederation and Earth people whom they cannot control and unintentionally help to evolve. Anyone can incarnate within Confederation worlds in the next life with their Earth memory intact by simply knowing they are not the body but their eternal awareness within their body, know that God is the invisible intelligence that is all people and all things, by following the Sermon on the Mount which an undercover Confederation friend said was the whole sermon on the mount was the essence of service, and to see the Confederation as friends. At the time of death the Confederation may use the soul

transfer machine from a distance as mentioned in Menger's Threads of Light to You and transfer your soul into a new body within Confederation ships or worlds and you will have your memory and personality intact. They also use the soul transfer machine to put the soul into an embryo at a certain stage of development within the womb in order to be born here with their personality and memory in-tact for their mission as an undercover operative here on Earth. The Omegans also have the same capability and technology.

# **Chapter 1: A Brief Summary of The Truth About The Galaxy and Brother Bob Renaud**

As mentioned in the Introduction, the Earth exists within in Confederation territory.<sup>1</sup> However due to the Omegan memory manipulation of the Confederation contacts their stories of how people live outside of Earth are inaccurate. As explained earlier the Alliance abandoned the Non-Interference Directive hence they are able to be directly involved on Earth and give accurate information through their only contactee brother Bob Renaud via brother Arkay on their official Alliance website the Terrakor Files the Alliance Terran Communication Center. <sup>2</sup>.

It must be known the Alliance will only contact brother Bob and No others. If someone claims to be Korendian from the Alliance they are either liars or are Omegan operatives with evil intention. The undercover Omegans tricked me one time as well but thanks to the heroic Confederation it was stopped.

Brother Bob Renaud whom I have communicated with and is literally my friend is truly a gentleman and Earth is blessed to have such a true hero. Bob was contacted when he was 18 by friendly people from the planet Korendor in the 1960's. <sup>3</sup>. He had many wonderful contacts with them and learned much about their civilization and their spiritual beliefs which he then relayed to people of Earth in order to give people inspiration to live more like them and to create a better Earth culture. <sup>4</sup>. But more than this Bob saved the lives of several Korendian brothers <sup>5</sup>. and also gave the Alliance advice in combatting advancing Kalran warships which was attacking near the bases they were in at the time. <sup>6</sup>.

Another gentlemen brother Arkay is the official representative of the Alliance for Earth through Bob's Alliance website.<sup>7</sup> Due to the inaccurate information about life being on Venus and other local planets due to the memory manipulation of the Omegans on the Confederation contacts their information about the truth of the galaxy is inaccurate. Therefore for the truth in the galaxy only

information from brother Bob's site will be used for the majority of this book. (It should be noted that Bob also had his memory manipulated by the Omegans, but the disinformation was fixed. The Confederation is aware of the disinformation but because their Non-Interference Directive prevent direct intervention they cannot themselves fix the piffle about Venus et all.) Much of the accurate information in this book come from either brother Bob or brother ArKay from the TerraKor website.

Who are the main Alliance people involved on Earth? They are known as Project Terra and they are Korendians from the planet Korendor. Their cities are vast with many parks within them, most of the city lay out is circular in pattern and many of their buildings are spiral or dome shaped. Everyone treats each other like family and the residential areas are on the outskirts of the city. They also have belts of forestry near the residential areas. Their economy is called Universal Economics. Everyone is guaranteed free housing and basic staples such as food and shelter and the use a competitive market system with employers. They use an Alliance pool which gives new business owners interest free capital. This economic system is very similar to the Individualist Anarchism of Benjamin Tucker and JK Ingalls and their Mutualist economic philosophy here on Earth. The UnEc system does not use physical money but a debit card system. The Alliance government is a voluntary hierarchical structure (it is voluntary because planets join the Alliance voluntarily so it is very similar to the Earth tradition of the Mutualist philosophy of Benjamin Tucker) 8. with the Council of Elder Masters at the Top, then the Sub-Council of Masters, then the Sector Council, then the Sub-Sector Council, then the Members and Protectorates. In 1988 they had over 700,000 member planets 9. The Kor people are truly wonderful and they often joke with brother Bob and it is quite hilarious to read in his accounts with the Kors on his website. I am truly happy to be his friend and I had briefly joked around with him too through his now closed TK guestbook and elsewhere.

## **Chapter 2: An Overview of the Omegan Situation More Detail**

The Omegans who originally began as rebels of the Confederation are being supported by a criminal organization of vast power known as the Syndicate. 1. The Syndicate are not criminal per se but are completely amoral just like the Omegans, and the Syndicate has no issues with using means that would be defined as evil. 2. They offer support to groups if they see it as a short or long term gain and their support of the Omegans is for gaining a foothold in Confederation territory. 3. An agreement has been made between the forces of evil the Syndicate and the forces of good the Alliance that a test be done to see if the Alliance can drive away Omegan forces on the 23 planets the Omegans have infiltrated. Per the rigid guidelines of the Syndicate the war is to be covert on the 23 planets although open war is sanctioned outside those planets. If the war becomes open war on any of the 23 planets the Syndicate will withdraw its support and the Omegans will be left to the mercy of the Alliance military might. 4. If the Omegans succeed in driving away the Alliance from the 23 planets full Syndicate support will be given toward the Omegan/Syndicate domination of the Galaxy.

There is another group involved who is monitoring the conflict. They are known as the Moderators: From a message dated 3/28/1997. There is a group known as the moderators who are some 80 million years older than any other the Alliance have encountered. They are serving as judges of the Syndicate/Omegan vs Confederation/Alliance conflict and will reward the victor of the conflict control of this galaxy. (It is my opinion that God is using the Omegans in this conflict as examples of how not to act as they have been dubbed 'Anti-God' 5. by the Confederation and everything they do is against the teaches of Jesus hence they can be called the Anti-Christ. It is my view that the Confederation are examples of God's Mercy while the Alliance are examples of God's Justice. When the Omegans lose the conflict God willing it will be an example to other planets

in other galaxies that people who take advantage of God's Mercy (the Omegans were originally Confederation members who rebelled against it and became evil) will be eventually eliminated by God's Justice (the Alliance). That is my own personal view.)

However back to the Moderators: here is a quote describing the situation in more detail:

"Now, further information on the "contest":

It has been revealed to me that the entire confrontation involving the Alliance, the Confederation, The Omegans and the "Syndicate" is being watched impassively by a highly-advanced intergalactic race some 80 million years older than any other civilization that the Alliance has ever encountered.

Dubbed "The Moderators" (they have offered no formal diplomatic contact or full identification), they have been in control of the local cluster of galaxies for at least 75 million years. Until the onset of this business, they've been content to stand aside and simply observe the activities of the various races and organizations in the galaxies.

They have occasionally left tantalizing traces of their presence, but only recently did they reveal themselves simultaneously to all parties, and establish the ground rules outlined in my last letter. They are serving as judges of the ongoing conflict, and will award governing of this galaxy to whichever side proves victorious.

They have no particular opinion on which side is "good" or "evil". They exist as the long-hypothesized gestalt of pure intellect and energy, and have no physical use for the material universe. We are, to be blunt, little more than bacteria under their microscopes. Our conflicts have no interest to them except as objects of scientific curiosity, much as we might be fascinated by antibodies in the blood fending off invading germs.

Although they are quite able to instantly terminate the Syndicate/Omegan actions in this galaxy, they have no desire to

influence the outcome. Their purpose is, rather, to allow the confrontation to continue as a comprehensive study of whether the concept of what we call "good" is indeed more powerful than that which we call "evil". The Moderators have observed this conflict often, but their very advancement has rendered them literally beyond the ability to appreciate the two opposing forces.

They have witnessed good vs evil for millions of years without reaching a definitive conclusion, because until this time there has been no encounter on the scale of what's going on now. Low-level frictions have been about evenly divided as to the victorious side, but this is a battle that could determine the control of this galaxy for millenia and quite possibly result in trillions of lost lives if things get "hot".

This interests The Moderators because it promises to resolve many questions that, for all their great wisdom and understanding, they've been unable to answer. Whichever side is ultimately victorious will be granted control, and the experiment will be allowed to proceed to determine whether that side can maintain the control. In point of fact, this is a close to excitement as The Moderators have known for eons." 6.

Here is other information from Section 1 of Arkay Messages:

The Omegans gave Earth people the knowledge of nuclear weaponry. 7.

Omegans in high level government positions are being replaced with Alliance operatives. The Omegans had encouraged low level wars but not global conflicts because they need us as a species. Since the Alliance operatives are now more in place they are no longer able to do so so more now than ever people need to start practicing morals to eliminate the possibility of nuclear war.

-Section 2: From Letters to Gabriel Green. In a message dated 2/24/1989

It states the Omegans have resigned to having their presence laid bare to the people of Earth. The rules of the Syndicate imposed

on them prevent any unprovoked hostility towards Earth people and our mere awareness of their Omegan presence is not adequate provocation.8.

### Section 3: Internet Bulletin Board Discussion

Message date 1/28/2005

The Omegans infiltrate governments at the highest levels and create friction and distrust that keeps people in a constant state of tension and wariness. At the same time they work within the sci-tech circles to "invent" new and more efficient weapons and systems to enhance the world's military.

When the time is right the Omegans introduce interstellar travel technology then stage an attack pretending to be the Confederation that will cause major damage and massive loss of life. The Omegans will present themselves and enlist the world's aid in attacking the Confederation. They do this because the Omegans have no military so they must trick other world military's to fall for their lies in order to use them to attack the Confederation. 9.

Message Date 2-2-2005

-The Omegans have been here since the 1700's. However since the Alliance is more advanced than the Omegans we will start to see positive change on the world due to the Alliance presence in 30-50 years. 10.

## **Chapter 3: Kalran Empire Information**

Not much is known. The Kalran's are hostile and violent by nature. 1. Unlike the Omegans, the Kalrans have a large military force. In the 1980's the Omegans formed a pact with the Kalrans. They are inhabitants of the planet Kalran, the fifth planet of the star Vega. 2. Their planet developed along the same lines as the Kors but with an emphasis on military power. For several hundred years the Alliance and Kalrans each ignored each other and both expanding their territory and gaining new planetary members. The Kalrans control over 150 systems. 3. The Alliance and the Kalrans fought bloody battles as noted in brother Bob's accounts of the Pluto Base Tour in 1987 and His Trip to the Moon in the 1960's.

## **Chapter 4: Spurious Contacts Files**

In general the mention of life on local planets such as Venus and Saturn by George Adamski, Howard Menger, Daniel Fry, Buck Nelson, and even brother Bob's original 1960 articles (brother Bob and the Alliance later found out and edited out the disinfo in the electronic versions on their website) were spurious due to the Omegans using technology to manipulate the memories of the contactees.1.

As science has clearly demonstrated none of the planets have native life and they are hostile to life in any recognizable form. Mars does have a giant underground base used by both the Confederation and the Alliance. 2.

## **Chapter 5: A Brief Summary of ArKay Questions And Answers**

What follows is a summary of information discussed between brother Bob and brother ArKay on a variety of subjects.

ArKay Questions and Answers 20090102

There is discussion between brother Bob and brother Arkay on the following:

A Confederation facility under the surface of Mars that begun in 967 A.D. and was completed in 971 A.D. There was also a base on Ceres but once the Mars base was completed the Ceres base was closed. The Confederation also has a base on Pluto for scientific and limited military activity.

Before the Kors developed interstellar space travel they launched a string of 20 Palomar sized telescopes into a roughly 120,000 mile diameter orbit above their world. They used interferometry to combine the 20 telescope images into one central image on their screens. They were not able to see our solar system but they were able to determine the size and mass of the sun and Earth from their orbital radii and periods. They determined Earth was in the habitable zone and their spectrographic analysis determined that Earth contained all the necessary elements for life. They sent an explorer ship here which landed in the mountains of Tibet. The Kors look somewhat similar to the so-called short grey aliens but the Kors are tan in color. They used their technology to make human versions of themselves and lived their lives in Europe during the medieval times until their operatives were killed by the plague. Much later in 1973 following information of tales of Gods who came to Earth in fire and thunder and lived in a Tibetan sacred mountain they found the original landing site of their ancestors who first came here. The base and the records of the first Korendians here have been preserved at the Korendor Museum of History in Vrell City.

In retrospect Arkay believes it was incautious to think they would be welcomed here but they had no standard n which to base their decision because they had not encountered anyone outside their star system.

The Kors do not involve themselves in Earth politics but they warn that people who are willing to slowly surrender their freedom for comfort will not end well. 1.

#### Arkay Questions and Answers 20090305

Discussions between Bob and Arkay include:

The Kors had to place a ban on logging due to preserving the environment. The ban left around 85 million board feet of wood in store houses. They continue to use proper forest management.

In rare cases clear cutting of small areas is approved for specific purposes and they are replaced by new trees in other areas.

Adult Korendians on Earth would be 4 feet tall on average for men and about 2 inches shorter for woman. An Earth person on Korendor would be about 3.2 times Earth gravity. 2.

#### Arkay Questions and Answers 20090321

Discussions by Bob and Arkay include:

The people of Korendor have implants so they can telepathically communicate to each other. The received signals are sent to the primary auditory cortex in a format that exactly simulates the signals from the auditory nerves. Therefore the recipient “hears” the voices exactly as he or she would through their ears. The previous versions of the implant had everyone’s voice sound monotone like HAL 9000 in the film 2001. Also the recipient is notified prior to the message that it is via implant as hearing a voice alone could be startling.

In regards to man made global warming the Alliance has concluded through their research that although man's contribution to the greenhouse gases have a small effect on global climate, they are mostly by purely natural influences.

There are six Alliance bases on Earth and three on the moon. The other 8 bases were closed due to the Alliance altering their tactics against the Omegans. Only MassCOM and CalCom remain of the original bases.

The Alliance also had a 90% drop of operatives on Earth. I will quote brother ArKay here:

"The decrease was accomplished by several changes in our programs:

- Narrowing the scope of our operations to addressing only Omegan activities;
- Eliminating peripheral operations such as social, educational and business functions;
- Vastly expanding our network of remote surveillance and monitoring units;
- Slowly but steadily increasing the coverage of the implant network;
- Bringing online far more sophisticated methods of communication interception;
- Availing ourselves of the explosive growth of the Internet, and of the Omegans' use of it;
- Exploiting the last two items to increase our disinformation program against entrenched Omegan operations.

As the Status Report indicates, our worldwide operative force has indeed been decreased by about 90%. Despite that, our intelligence gathering and our efficiency have been increased manyfold." 3.

ArKay Questions And Answers 20090705

This is what brother Bob and brother ArKay discuss

Brother ArKay officially declares that brother Bob is the only contactee of the Alliance. There are no other Korendian/Alliance contactees.

NASA programs and the scientific knowledge gained from the programs are important. A culture with an anti-science mindset will never advance.

Most of the UFO related content are more interested in the same imagery and conspiracy theories than in doing serious investigation. The Alliance does not require the support of the Earth people or even the awareness that the Alliance exists. Their purpose is to remove the Omegan influence from Earth.

Brother Bob has a picture of a taco shop and someone wrote Korendian on the wall as decoration. Brothers ArKays response is classic:

“Have any of your California crew ever dined there?

**AK:** Stand by for a few minutes while I research this weighty matter ..... CalCom has just released this official press statement:

While it is not in accordance with standard Alliance protocol to provide references for Terran business establishments, we do confirm that the cited dining facility has been visited on several occasions by both base personnel and field agents with a taste for Mexican cuisine and a desire to patronize openly alien-friendly commercial ventures.

Taren Lora, CalCom Personnel Section

I hope that this has satisfactorily addressed the matter, my brother.

**BR:** Thank you, good sir. It has been entered into the official record.

Va i luce.

**AK:** Va i luce.” 4.

#### ArKay Questions and Answers 20110418

Bob and ArKay discussed the following:

The Alliance at that time were not as far along in their efforts to drive out the Omegan infiltrators as they hoped to be. However the Omegans are in defensive mode spending more time, effort, and resources on combatting the Alliance than on manipulating the Earth people. They had established deadlines for several phases of their operations and the Alliance deep cover operatives have reported that the deadlines of all but two had been pushed back or suspended.

The Kepler Mission satellite within a 5000 light year radius could 0.0087% of all planetary systems within the 5000 light year radius aligned such that their orbital planes are “on edge” with respect to Earth.

The Alliance implant network at the time was around 7 percent complete. They are undetectable to any non-Alliance technology.  
5.

#### ArKay Questions And Answers 20130803

Bob and Arkay discussed:

A youtube video by Gerard Aartsen is discussed and brother ArKay states some of his views are “off the wall”.. He presents useful information but it is colored by far out commentary.

There is discussion about the rate of increasing sightings of UFOs. Brother ArKay states the Alliance is not involved in the sightings. I quote brother ArKay here:

“Our position on public appearances has not changed. We are not involved in the "gee whiz" aspects of the dealings with your

people. Colorful displays of lights in the sky would serve no useful purpose in our program. We are aware of who is responsible for those sightings, and we have communicated with them about their rationale. They have provided no solid arguments in favor of such a policy, and we have concluded that they do it just because they can.

In a way, it is the alien equivalent to the flasher who opens his topcoat to startle passers-by with a brief glimpse of his shortcomings. It has no value other than to give "serious" UFOlogists more data for their long, repetitive, and ultimately worthless lists of lights.

In short, no, that alien exhibitionism is not of our doing." 6.

#### ArKay Questions And Answers 20131016

Brother Bob and ArKay discuss the following Myths commonly found on New Age websites:

-Myth #1: Were Earth to be destroyed, it would severely impact the universe.

Truth: If Earth were to vanish it would not impact the universe like the piffle new agers claim. Planets are destroyed all the time in the universe due to any number of reasons. The Alliance and Confederation would note the event but the universe would go on.

-Myth #2: Aliens are afraid of humans.

Truth: The intended purpose of the Omegans was to shape Earth into a fear inspiring interstellar war machine however due to the Alliance that Omegan goal has largely been stopped (as of 2013-ed) so the Omegan goal is no longer a serious concern.

Myth #3: Aliens need human aid in the quest for bringing a final peace to Earth

Truth: According to new age piffle, Earth is under watch of various God like beings in massive lightships in charge of millions of crafts

who cannot do anything for Earth unless a handful of new agers get involved. This drivel is pure nonsense and those peddling such nonsense are liars and charlatans.

Myth #4: The use of terms such as “vibration” to mystify the readers

Truth: Terms like vibration, spiritual, and light, are all lofty terms with no substance. The light that the Korendians speak of means knowledge, understanding, wisdom and peace and not a literal light. 7.

## **Chapter 6: How To Tell A Real UFO Contactee by Master KALEN-LI RETAN**

Master KALEN-LI RETAN does a good job explaining it so I will quote what he says about it here:

"I do recall mentioning it in passing to our brother Bob. Allow me to restate it.

When a contactee claims that purported visitors to your world say that they require human intervention to carry out or assist in their plans for mankind, be wary. They didn't travel all those light years only to be powerless to implement their own operations. If "space brothers" are in fact communicating with your people and telling you that without human belief and assistance, they cannot achieve their goals, great caution is recommended.

On a similar note, when a contactee tells you that the SB gave him or her a message that is vitally important to mankind and that he or she must spread the message as widely as possible, the chances are quite good that the person is either a fraud, deluded, or a channel of disinformation being used by hostile agents. Neither the Alliance nor the Confederation would engage in such brazen deception.

However, because of its rigid adherence to non-interference directives, the Confederation has been known to ask its contactees to assist them in certain non-critical matters that they interpret to violate or infringe upon the NID. (Non-Interference Directive-ed) You are well aware that the Alliance does not require assistance from your people, although we gladly accept freely-given offers of aid that would make our tasks a bit easier.

If you study the various "contactee" stories of the past and present, you can readily discern those that are most likely either fraudulent or delusional, or are being manipulated by antagonistic elements. Be especially cautious of those involving "channeling" and verbose, florid, meaningless, buzzword-laden rhetoric. I

believe that you know without further elaboration those to whom I am referring.

This is not to say that channeling is not being used by the Confederation. It is, but on a very limited basis, and it does not involve the sort of pompous "new-age" piffle about God-like superbeings that is found so often on the Internet.

As we have stated before, we will neither validate nor disprove the stories of any contactees past or present. That is not our purpose, and what they say in no way affects our operations. We are aware that a certain notorious contactee has dismissed our brother Bob's reports—and numerous others—as "false". We will not comment on his stories beyond saying that he spins a good yarn. We advise him to take to heart the old axiom about glass houses, and avoid the photos of badly-constructed "laser guns".

Va i luce." 1.

## **Chapter 7: Billions of Earths Not True**

Dr. Alan Boss 1. has stated there are billions of Earths. According to brother ArKay there are closer to 300-350 million. Though many planets are habitable, less than 15% are life-bearing. By Alliance estimates of worlds with intelligent life 37% are at or beyond the level of Earth and about 3% are vastly beyond the Alliance. The majority of the 3% do not wish to be aligned with the Alliance or Confederation. They are loosely aligned with an organization that predates the Alliance by millions of years. They have in the past engaged in seeding other worlds. The Alliance remains on friendly terms with many of them. None of the 3% have anything to do with Earth. 2.

## **Chapter 8: How Confederation and Omegan Operatives Are Born Here On Earth (My View)**

In the book *Threads of Light To You* by Menger he states there is soul transfer machine that can take the soul of the person at death and transfer the soul into a new clone body with their personality and memory intact. Both the Confederation and Omegans (and Alliance) do this. 1.

To have an operative born on Earth it is my belief they use the soul transfer machine to transfer the soul into an embryo at a certain time of development than are born here with their memory of their mission and personality intact. They also have autanoman who are like robot doubles of people who can serve as stand ins during dangerous situations as stated in *Mass Contacts* and *50 Years of Amicizia* by Breccia. The Confederation also uses brain implants to communicate telepathically to others in the implant network like the Alliance.

## Chapter 8 Notes:

1. Menger, Howard et al. Threads of Light To You. Howard and Connie Menger (1995) pp 81.

## **Chapter 9: I Support the Galactic Tribunal Ruling and My Theory**

There has been some differences of opinion between the Confederation and the Alliance regarding Earth due to their different interpretations of the Non-Interference Directive. According to brother Arkay in the 'Arkay Files: Arkay to Gabriel Green 1989,1990 Question 5: Reason for Alliance Intervention' in brother Bob Renaud's excellent TerraKor Files Alliance Terran Communication Center website, the Galactic Federation High Tribunal is "...supportive, if not publicly enthusiastic..." concerning Alliance efforts here is defeating the evil ET's on Earth. The main evil ones are known as the Omegans.

Both the Confederation and Alliance are our brothers and sisters. My two favorite groups are the Buck Nelson group of the Confederation and the Kors of the Alliance.

Also I like to be on the Confederation side of neutral. What I mean by that is I see both the Confederation and the Alliance as two sides of the same coin. Both are an expression of God in my opinion. I see the Confederation as God's expression of Mercy while the Alliance as God's expression of Justice.

With God's grace I have made a system for Earth people that actually works in practice in regards to electronic harassment and behavior modification by evil ET's against Earth people. This system uses both God's mercy and justice (or yin and yang in oriental terms) through the following way:

When evil is done to someone anyone can use God's mercy by forgiving the evil (which Jesus says when you forgive evil your sins are forgiven then they can pray for what they want and they are also guaranteed to make it to higher places in the next life in Sermon on the Mount in Mathew 5-7) so when evil is done to someone they can forgive the evil then pray for success of the Confederation and Alliance or pray for whatever they want and

they are more likely to get what they want because they forgave the evil that was done to them and God was impressed. This way of mercy makes it so evil is neutralized by the evil intentions being transformed into good while God's Justice is taken knowing that when one prays for the Alliance to be successful it is helping the Alliance to remove the Omegans on Earth through the guidance of God. So by using both God's Mercy and Justice any Earth person who forgives evil then prays for good is both neutralizing evil actions and guaranteeing they make it to higher planets in the next life while they pray for the Alliance to remove evil forces on Earth which is Justice. (The main Omegean program is no longer a serious threat due to the Alliance stopping it as noted in 'Arkay Questions and Answers 20131016')

Anyone can use God's mercy through the Confederation as well by having an attitude of service and friendship towards the Confederation and then pray for their assistance or protection and they will help out either by influencing the subconscious from a distance with their technology or sending an undercover operative to help out in small ways. The real undercover Confederation operatives radiate either powerful friendship wisdom energy (ie. Adamski, Menger, and W56 groups), or powerful peace energy (Daniel Fry's group), or powerful calmness and peace energy (Buck Nelson's group) depending on which group they are from. They Do Not come from Venus that was memory manipulation by the evil Omegans against the Confederation contactees as stated in the 'Spurious Contacts Files' on the TerraKor site. (It is my opinion that God is using the Omegans in this conflict as examples of how not to act as they have been dubbed 'Anti-God' 5. by the Confederation and everything they do is against the teaches of Jesus hence they can be called the Anti-Christ. It is my view that the Confederation are examples of God's Mercy while the Alliance are examples of God's Justice. When the Omegans lose the conflict God willing it will be an example to other planets in other galaxies that people who take advantage of God's Mercy (the Omegans were originally Confederation members who rebelled against it and became evil) will be eventually eliminated by God's Justice (the Alliance). That is my own personal view.)

In my view this combination of God's Mercy through the Confederation and using the Sermon on the Mount by Jesus plus God's Justice through the Alliance on Earth is to me a balance (like Yin and Yang) on Earth and is why I support both and why I like being part of God's Mercy but neutral at the same time as I think both are equally important and why I support neutral planets like Arcturus who aligned with both the Confederation and Alliance and hence why I support the Galactic Tribunal ruling. 1. The Alliance does not contact anyone except brother Bob Renaud. The Confederation will contact anyway if they are sincere in service towards them and it would be through their undercover operatives using indirect ways to let you know who they are. My personal favorite groups are Buck Nelson's group which radiates calmness and peace. The Kors are another favorite group of mine as are Adamski's/W56 group which radiates friendship and peace and Daniel Fry's group which radiates peace.

[http://berkshire.net/~brenaud/arkay/ArKay\\_to\\_Green.htm#19890910-5](http://berkshire.net/~brenaud/arkay/ArKay_to_Green.htm#19890910-5)

# **Chapter 10: The Non-Interference Directive, Religion, End of Times, 1989 Tiananmen Square Protests, and Arcturus**

What follows is a brief summary of the listed topics and Alliance involvement therein:

This information is from ArKay to Gabriel Green 1989-1990 on the TerraKor Alliance-Terran Communication Center Website:

The Non-Interference Directive:

Question 5: Reason For Alliance Intervention

The alteration of society to a large extent is disallowed by both the Alliance and Confederation. However the Omegans did not originate on Earth so the Alliance has no problem in physically removing them from Earth. The Confederation see the Omegean presence as part of the development of Earth society or karma and removing the Omegans would alter Earth society not permitted according to their rules as long as Earth civilization remains viable. Therein is the disagreement between the Confederation and the Alliance. The Alliance doing this within Confederation territory has made the disagreement bigger however the Confederation has decided to “tolerate” (their term) the Alliance conflict with the Omegans on Earth because the threat posed by the Omegans affects them as well as the Alliance. The sector command (the Confederation groups involved with Earth) have given ‘tacit approval’ to the Alliance presence here. In most cases the Alliance and Confederation are friendly and co-operative and the Galactic High Tribunal is publicly enthusiastic about the Alliance efforts on Earth in defeating the Omegean menace. The debate between the Alliance and Confederation rests with the local Confederation Sector Command and not its higher up Galactic Tribunal. 1.

## Religion:

### The Religious views of the Alliance (and Confederation):

They have no formal religion or religious denomination. They believe in God and follow the laws of God. In Earth terms they would be Christian but without any church or organized ritual. Regarding Earth religion they recommend Christianity because they truly believe Jesus is God 2. because his teachings are essentially the same as the teachings of God through-out the galaxy. They do not know any more about the 'Last of Days' prophecy then we Earth people do because they have never seen God directly and openly intervene in human affairs and they do not think God will do so. They anticipate the 'Last Days' but do not know what to make of it. 3.

### 1989 Tiananmen Square Protests:

There have always been democratically oriented citizens in China and all other countries under oppressive regimes. Alliance agents posing as citizens joined up with the resistance groups and provided resources of communication that allowed them unprecedented access to each other. Alliance intervention was more felt in the higher levels of the Communist government. The delay in responding so brutally to the mass demonstrations was due to the Alliance holding off the government action as long as they could without destroying their cover. Despite the undercover Alliance operative advice to the protest leaders to not provoke the government, the protestors made it their goal to confront the communist government and knew the consequences of their actions would probably include the loss of lives but they felt so strongly about freedom that they preferred death with honor than a life without freedom. The Chinese government knew of the underground and planned to do a silent purge of 63,000 deaths. This evil plan was intolerable to the Alliance which is why the Alliance intervened. The protests made the world see the evil of Chinese state Communism and it ruined the Chinese state credibility. Other people in other state controlled Communist countries must wonder if it could happen to them and the Alliance

operatives planned to exploit that potential to expose the bankrupt was of state communism and oppression. 4. The fall of Russian state Communism was due in large part to Alliance influence of Gorbachev and also the increasing freedoms from him like freedom of speech.

Arcturus:

Arcturus is surrounded by seven planets none of which have any sort of native life. That condition did not always exist. At one point there was a very advanced civilization and the two nearest planets were colonized by them. Eventually the people left for an unknown destination leaving behind their marvelous cities and monuments. They took every trace of records with them and the Alliance searched the cities and monuments for any trace of evidence of where they had gone. It was concluded they migrated to the M-31 Galaxy in Andromeda. The Alliance wishing them God's abundance blessings in their new home. The Alliance call Arcturus Elderon which means wise spirit. The Alliance use the planet orbiting around Arcturus they named Alandra which means knowledge.

The Alliance restored the library left by the previous civilization and use it now to house the Alliance constitution. Around 3 million people from Korendor and other worlds live there permanently to operate and maintain the vast computer complex that has been built to hold all the knowledge of the Alliance. The headquarters of the Confederation is also on Alundra. 5. 6.

# **Chapter 11: The Alliance-Confederation Brotherhood Club Future Hope**

It is my honor to be friends with brother Bob the official Earth representative to the Alliance.

The CTR (enemies of the Confederation and Alliance) electronic harassment (as noted by Bruno Sammaciccia) has been brutal and ruthless to me on a daily basis that provokes an extreme test of my will.

As stated by Sammaciccia the evil groups do things like:

“...altering documents, changing memories, even wiping out somebody’s memories, injecting wrong feelings, as easily as if they were showing a movie. Our friends (the Confederation- ed) had often stressed that against all that the only possible defense should consist in a firm will...” 1.

Sometimes they succeed in destroying my will sometimes not. But I have one method so I can always win even if the evil groups break my will temporarily. That method is the sermon on the mount by Jesus. The more they harass me even if they are successful in destroying my will I simply later forgive them and by doing so all my past transgressions are forgiven and I am guaranteed to make it to Confederation worlds in the next life according to the teachings of the Sermon on the Mount. I than pray for the Confederation and Alliance brothers to continue to be successful and also be able to pray for whatever else I want as Jesus says first forgive so your sins are forgiven than pray for what you wish. It is this reliance and faith in Jesus that keeps me going in life. And this faith came at the encouragement of my friendship with brother Bob who recommended the teachings of Jesus in his writings and from an undercover Confederation operative friend of mine who encouraged me in person to follow Jesus.

I know firsthand the horror that the evil groups are capable of even while restrained by the Confederation and Alliance and I can only imagine the terrifying outcome if they were to win this galaxy and what they would do free of the confines of the Confederation and Alliance. But more than that I also know firsthand the goodness and patience and caring friendship of the Confederation brothers and the wonderful warm friendship and down to Earth common sense of the Alliance brothers who also happen to have an awesome sense of humor. I am truly blessed to be friends with both groups and I hope one day in the next life if I make it with Buck Nelson's group I hope to create an Alliance-Confederation brotherhood club in service of God and have the club be designed to give hope to all through friendship and through the inspiring words of Jesus.

## **Chapter 11 Notes:**

## **Chapter 12: Brief List of Some of the Brightest Stars That Have Colonized Planets**

Star System: ALPHA CANI MAJOIS (SIRIUS)

Planets:

Kaldan: The “official” headquarters planet of the Omegans. They have decentralized and scattered their operations over a wide area to avoid being taken out in one attack.

Damat: The Omegan’s major military base.

Star System: ALPHA LYRAE (VEGA) KALRANDA Planet:

Planets:

Kalran: Home system of the Kalran empire.

Star system: ALPHA AQUILAE (ALTAIR),

Planets:

Korelia

Sulderel

There are 5 planets in the system. The 2 mentioned before are colonized by the Galactic Federation. The other 3 have outposts but no permanent colonies.

Star System: EPSILON CANIS MAJORIS (ADHARA),

This system has 5 planets. The 2nd, 3rd, and 4th planets have Galactic Federation colonies. The 2nd and 4th planets are scientific research facilities. This is a blue star system.

Star System: ALPHA PERSEI (MIRPHAK),

There are no natural planets in this system however the Galactic Federation has an artificial planet in orbit. (Daniel Fry's Confederation contacts lived in a giant artificial planetoid ship) 1.

Star System: ALPHA BOOTIS

Arcturus

Arcturia is a dual membership planet of both the Galactic Federation and the Alliance TerraKor site in the article online titled 'Korendians on the Internet. Stuff that just ain't so'. 2.

Star System: KORENA, Korena,

The Alliance come from the star system KORENA from the planet Korendor. 3.

As seen here there are not 12 planets in every star system as Adamksi claimed. 4. It was memory manipulation to discredit his message due to the Omegans as discussed elsewhere in this book. Take a moment and appreciate these planets and the people on them in the night sky. Then send thanks to God for the Federation and the Alliance for being here on Earth and ask God to help them with to be successful with their missions on Earth.
